

WRAPPING PROCESS EQUIPMENT

ALIGNER FEEDER FLOWPACK

THE ALIGNER FEEDER FLOW-PACK MACHINE WILL AUTOMATICALLY ARRANGE PRODUCTS INTO A SINGLE FILE BEFORE FEEDING THEM INTO THE WRAPPING SECTION

The Loynds Aligner Feeder Flow-pack is for the automatic feeding and wrapping of small and medium sized bar-type products into a pillow pack style. It has a running speed of up to 500 wraps per minute.

It has a wrapping speed of 300-500 wraps per minute and will adjust its speed to coincide with the production machines feeding it.

The in-feed section uses a series of conveyors to automatically align products into single file before feeding them into the wrapper.

The flow-pack is fully automatic with print registration and a date printer, as well as an auto-reject device for misplaced chocolates/candies.

The machine can also be supplied in different configurations of cutting jaws for different sized products.

FEATURES

- 2 cutter jaw gives a bag size of 90–180mm
- 3 cutter jaw gives a bag size of 70–120mm
- 4 cutter jaw gives a bag size of 50–80mm
- Max roll diameter: 330mm

ALIGNER FEEDER FLOWPACK

SPECIFICATIONS

Overall Height
1400mm

Overall Length
6700mm
