

BAGGING EQUIPMENT

CHECK WEIGHER

TO HELP YOU ENSURE YOUR FINAL PRODUCT WEIGHT IS WITHIN TOLERANCE RANGES

End of line machine for the automatic checking for correct weight of all products.

Products that don't meet the set weight parameters will be automatically rejected.

A variety of reject mechanisms are available, depending on your product type.

The machines are manufactured from full stainless-steel and are waterproof for easy cleaning.

The weigh load cells are high precision and the belts require zero tracking

Belt speeds will adjust automatically according to different product types. 50 product presets can be saved in the machine and these are easy to edit and recall.

Controls are all via an easy to use touchscreen interface.
