

BAGGING EQUIPMENT

QUAD-SIDE BAGGING MACHINE

FOR PACKING AND SEALING OF PRODUCT INTO FOUR-SIDED STAND-UP POUCHES / BAGS

This machine creates a smooth 4-sided bag with vertical sealing and bottom gusset, so the bag will stand up on its own.

It has the capability to produce bags of various sizes (see below) and has an output of approx. 50 per minute.

It can accept a film with maximum width of 530mm and forms seals in the following size ranges:

Side seal: 4-6mm

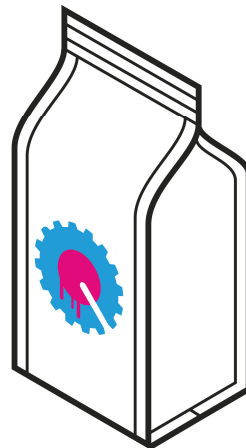

Back seal: 10-12mm

FEATURES

- Front-facing bag width: 80-170mm
- Side of bag width: 40-100mm
- Bag height: 100-280mm
- Power: 5.3Kw

OPTIONS

- Hole punching
- Excess film cutter and collection
