

WRAPPING PROCESS EQUIPMENT

FOLD WRAP MACHINE

FOR PRE-FORMED CANDIES WRAPPED IN "FOLD WRAP" STYLE

This chain feed fold wrapping machine is suitable for the fold wrapping of cubed, square, oblong, rectangle type flat bottomed products in single point underfold.

The machine can wrap at a maximum speed of 300 candies per minute with automatic feed or as fast as an operator can feed it as manual mode.

The machine is variable in speed being controlled by an inverter unit. Supplied with a print registration unit for use on centring printed films.

The machine comes set for one size, the size ranges are: Length 19mm – 45mm, width 12mm x 25mm, height 5mm – 16mm.
Power 3kw.

FEATURES

- Variable speed control
- Print registration unit
- Up to 300 wraps per minute
