

# WRAPPING EQUIPMENT

## CHOCOLATE MINI WRAP MACHINE – MW02

### SUITABLE FOR WRAPPING BARS & PIECE TYPE PRODUCTS AT UP TO 200 PCS / MINUTE

The automatic packaging machine is designed to efficiently handle small bar type products such as chocolates, wafers, and biscuits. It includes an output of up to 200 pieces per minute, although the actual speed may vary depending on the shape and dimensions of the products being wrapped. This machine is user-friendly, emphasizing ease of operation, cleaning, and maintenance.

The machine wraps product in a heat-sealed pack with zigzag cut crimps at each end of the wrap.

For enhanced safety, the machine includes protective guards around the wrapping area, equipped with magnetic guard switch protection to ensure operational safety. Additionally, it offers adjustable speeds, allowing operators to vary the wrapping rate from 20 to 200 wraps per minute.

### FEATURES

- Cross feed infeed system
- Print registration unit for running printed films
- Wrapping counter

### OPTIONS

- Date Code Printer
