

CANDY PROCESSING EQUIPMENT

CONFECTIONERY ROPE SIZER MACHINE – RS01

FORMS THE BATCH OF CANDY INTO A CONSISTENT ROPE, WHICH IS NECESSARY FOR FEEDING THE CANDY INTO THE NEXT STAGE OF THE MANUFACTURING PROCESS.

The Loynds RS01 Candy Rope Sizer can be supplied as a standalone unit or as part of a complete Loynds candy manufacturing production line. The machine is typically fed from a Batch Roller and sizes the candy into a uniform rope. This is a crucial step for seamless integration into subsequent stages of candy manufacturing.

The machine features 1 set of vertical sizing rollers and 4 sets of horizontal sizing rollers. Each set, reducing the rope incrementally to the required diameter.

Each set of rollers includes adjustment for fine control over the rope diameter. The machine can be supplied with or without a tilt table at the end to control the flow of rope into the downstream process.

FEATURES

- Precision sizing with one set of vertical and four sets of horizontal brass rollers.
- Integrated electric heating with adjustable heat control.
- Variable speed with an electronic inverter.
- Optional tilt table for enhanced process flow.
- Left to right or right to left options available.
- Emergency stop and interlocked guarding.
- Suitable for use with hard candy, toffee, chewy sweets and centre filled products.
- **Dimensions:** (L)1500mm x (W)600mm x (H)1650mm
