

MINI COLD TABLE-MCT01

THESE TABLES ARE IDEAL FOR SMALL SCALE PRODUCTION, CANDY DEMONSTRATIONS AND RECIPE DEVELOPMENT LABORATORIES.

The Loynds Mini Cold Table is made from full 304 stainless-steel construction. The table top is manufactured from 10mm thick stainless steel to ensure an even cooling of the candy batch and to maximize heat dispersion. The inside water system is designed to give optimal cooling.

20mm solid square section side bars run around the full perimeter of the table to ensure the candy doesn't run over the edge. A central moveable bar can be adjusted up and down the table to give a smaller cooling area or enable you to create two smaller areas for cooling two batches simultaneously.

The tabletop is water cooled and there are ½" BSP pipe fittings for the cold water inlet & outlet.

FEATURES

- Full stainless-steel construction.
- 10mm thick surface for optimum cooling of candy.
- Internal water-cooled system regulates the tabletop temperature
- Floating divider bar

OPTIONS

- Can be mounted on stand with drawers
- Overall Height** 125mm
- Overall Length** 1000mm
- Overall Width** 500mm
- Weight** 84kg
- Capacity** Max 10kg
- Material** Stainless Steel
