

## CUSTOM-MADE ROTARY FORMING DIES

### AFTERMARKET DIES BUILT TO YOUR SPECIFICATION SUITABLE FOR ALL MAKES AND MODELS OF DIE FORMED CONFECTIONERY MACHINERY.

We offer bespoke made-to-order rotary forming dies solutions tailored to any type of confectionery machine that utilizes a die for sweet formation. Our range includes, but is not limited to, Uniplast Dies, T Dies, Rostoplast, and Lollipop dies, all custom-built to meet your specific production requirements.

Our dies are designed and manufactured in the United Kingdom, ensuring a bespoke approach to each client's needs. We use the highest quality materials, advanced cutting tools, and leading-edge tool room technology, guaranteeing precision and durability. This approach allows us to create dies that are perfectly engineered to work seamlessly with your equipment.

We pride ourselves on our ability to manufacture dies for any model or make of confectionery equipment. Whether you need dies for use in Uniplast, Super Rostoplast, Junior Rostoplast, Robust & Super Robust, Strada, and Plas-wrap machines or if you require something more specific, we can manufacture a custom die for you. Our expertise extends to creating dies for Lollipop machines and other specialized equipment from manufacturers like Aquarius, Carugil, Latini, and more.
