

CANDY PROCESSING EQUIPMENT

SUGAR / CANDY PULLING MACHINES — PM01, PM02 & PM03

USED FOR THE PULLING AND AERATION OF BOTH HARD AND SOFT CANDY MASSES.

Sugar Pulling Machines are a key piece of equipment in the confectionery industry for the effective aeration and pulling of both hard and soft candy masses. Our pulling machines are available in varying capacities to suit diverse production needs: the PM02 with a 25kg capacity, and the PM03 boasting a 35kg capacity. Additionally, for smaller scale operations, our PM01 model has a 5Kg capacity.

The pulling motion adds air into the batch of candy. This has multiple effects; increasing the volume of candy, changing its mouth feel and also helping change the colour to white.

Crafted for durability and long-term use, the body of the sugar pulling machines is constructed from heavy-duty, cast steel. This ensures a robust framework, capable of withstanding the rigors of continuous operation. The design of these machines is not only time-tested but also optimized for performance in the confectionery manufacturing process.

Central to these machines is a unique three-arm mechanism. This includes one stationary arm and two revolving arms, all of which are covered in nylon. This design prevents the sticking of candy mass to the arms, ensuring a smooth and uninterrupted pulling process.

The candy mass is placed over the arms, and once the machine is switched on, the candy mass is continuously pulled around the arms.

FEATURES

- PM01: Ideal for small-scale production with a 5kg capacity.
Dimensions: 570mm x 870mm x 1090mm.
Weight: 120Kg
- PM02: Designed for mid-level production, offering a 25kg capacity.
Dimensions: 1110mm x 994mm x 1091mm
Weight: 550Kg
- PM03: Catering to higher production demands with a 35kg capacity.
Dimensions: 1350mm x 1260mm x 1200mm
Weight: 650Kg

CANDY PROCESSING EQUIPMENT

SUGAR / CANDY PULLING MACHINES – PM01, PM02 & PM03

SPECIFICATIONS

Overall Length

PM01: 570mm PM02: 1110mm PM03: 1350mm

Overall Width

PM01: 870mm PM02: 994mm PM03: 1260mm

Overall Height

PM01: 1090mm PM02: 1091mm PM03: 1200mm

Material

304 stainless-steel.

Capacity

PM01: 5kg PM02: 25kg PM03: 35kg

Weight

PM01: 120kg PM02: 550kg PM03: 650kg

Power

240V Single Phase

Products

Hard and Soft Candy Masses.
