## CHAIN DIE CANDY FORMING MACHINE – CHO1

**FOR PRODUCTION OF A LARGE RANGE OF CONFECTIONERY ITEMS INCLUDING HARD CANDIES, SOFT CHEWS, GUMS, CARAMEL PRODUCTS, CHOCOLATE ÉCLAIRS AND MORE.**

The Chain Die Forming Machine is engineered for high volume manufacturing of a broad spectrum of confectionery items including hard candies, soft chews, gums, caramel products, chocolate éclairs and more. This candy making machine is also perfect for manufacturing products with high fill centre fillings like liquid, jam, or paste.

Switching the moulding dies allows you to produce candies of different shapes and sizes with ease. The machine is supplied with 1 die set built to your specification. Additional die sets can be purchased allowing you to manufacture a range of products.

We offer additional services including installation and training packages, as well as support in recipe development and specialised training in candy manufacturing.

### FEATURES

- ✿ **Capacity:** Capable of manufacturing up to 1,200 candies per minute.
  - ✿ **Tailor-Made Dies:** Customised to your specification.
  - ✿ **Safety First:** Features a stainless-steel inspection hood with transparent windows, magnetic guard switches and emergency stop buttons.
  - ✿ **Die Cooling:** An internal air fan is installed to cool down the chain-type die.
  - ✿ **Dimensions:** (L)1400mm x (W)790mm x (H)1650mm.
- Optional Add-Ons
- ✿ **Candy Spreading Conveyor:** An additional conveyor can be installed between the chain die former and the multi-tier cooling tunnel.
  - ✿ **Enhanced Mobility:** Optional castors are available for easier machine relocation.
