

# Candy Process Equipment

## Chain Candy Forming Machine

Linear Chain Forming Machine for Hard & Soft Candy with or without Filling.

Forming machine complete with one set of adjustable vertical infeed rollers.

The die is fully enclosed inside the inspection hood which has magnetic guard switch protection.

Higher filling percentages can be attained because the die has a longer period in which to close the candy around the centre.

The die is cooled by an ambient internal fan that directs air only the forming area of the die.

The machine can be supplied with a spreading conveyor to spread the candies along the width of a cooling conveyor.

### Features

-  Internal die cooling
-  Variable speed

### Options

-  Spreading conveyor.
-  Castors

Spreading conveyor

# Chain Candy Forming Machine

## Specifications

**Overall Length**  
1400mm

**Overall Width**  
790mm

**Overall Height**  
1650mm

**Material**

Cast Steel with painted & stainless-steel panels, contact parts food grade materials

**Output**

Up to 350kg per hour depending on size & shape.

**Power**

2.2kw

**Weight**

Machine 465Kg

**Products**

Hard & Soft Candy.
