

CANDY PROCESSING EQUIPMENT

CHAIN DIE CANDY FORMING MACHINE – CHO1

FOR PRODUCTION OF HARD CANDIES, SOFT CANDIES & CARAMEL PRODUCTS WITH OR WITHOUT A LIQUID CENTRE FILL

The Chain Die Forming Machine is engineered for high volume manufacturing of a broad range of items including hard candies, soft chews, caramel products, chocolate éclairs and more. This machine is also perfect for manufacturing products with high fill centre fillings like liquid, jam, or paste.

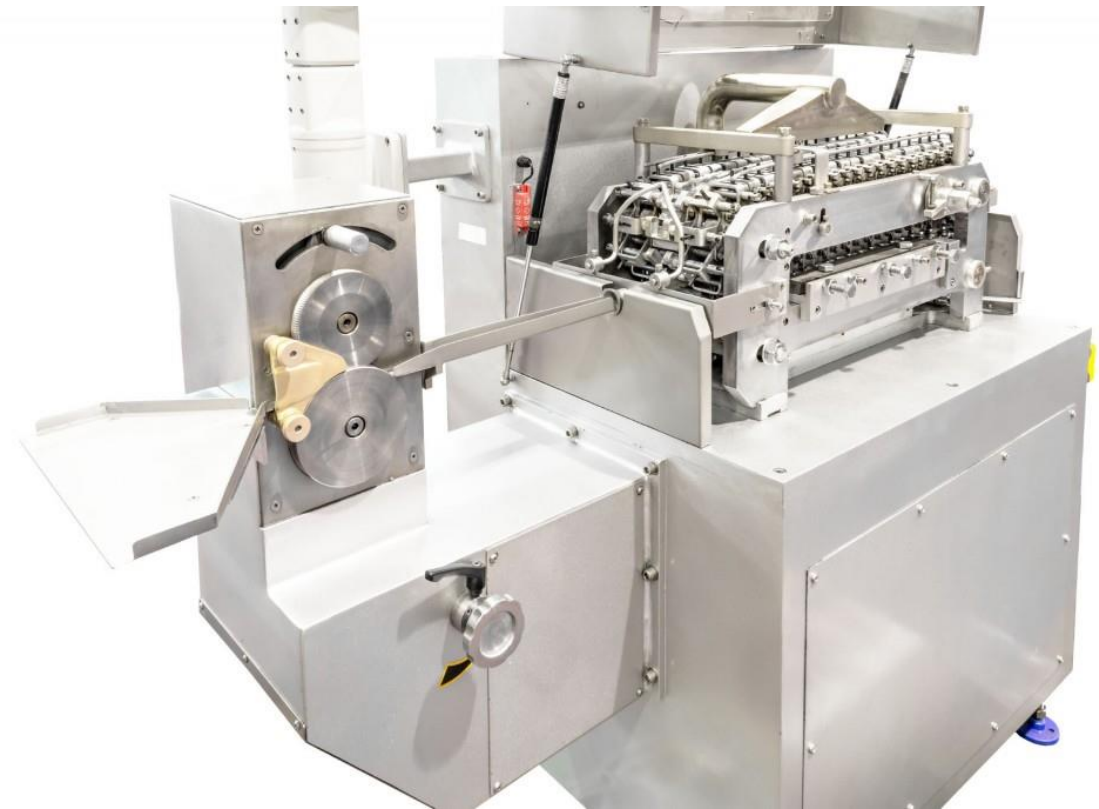

Changing the chain die allows you to produce candies of different shapes and sizes with ease. The machine is supplied with 1 die set built to your specification. Additional die sets can be purchased allowing you to manufacture a range of products.

FEATURES

- **Capacity:** Capable of manufacturing up to 1,600 candies per minute.
- **Tailor-Made Dies:** Customised to your specification.
- **Safety First:** Features a stainless-steel inspection hood with transparent windows, magnetic guard switches and emergency stop buttons.
- **Die Cooling:** An internal air fan is installed to cool down the chain-type die.

OPTIONS

- **Candy Spreading Conveyor:** An additional conveyor can be installed between the chain die former and the multi-tier cooling tunnel.
- **Enhanced Mobility:** Optional castors are available for easier machine relocation.

CHAIN DIE CANDY FORMING MACHINE – CH01
