

SINGLE TIER MINI COOLER-MCC01

FOR COOLING OF HARD CANDY PRODUCTS

The Loynds Mini Cooler is the made to work with our Mini Candy Forming Machine. This machine is the ideal solution for a small-scale production, giving a good cooling solution in a small footprint. Mounted on lockable castors.

Consisting of a pneumatic spreading device to spread the candies along the width of the belt, fitted with an 780mm wide plastic mesh grid belt, overhead ambient blower fans. The unit is variable in speed and is mounted with Lockable casters with lockdown anchor feet.

Product is conveyed through the cooler while ambient fans blow down air from above to harden the product, there is a collection station at the end of the belt, where trays can be located to collect the product.

FEATURES

- Small footprint
- Variable speed

OPTIONS

- Collection trays
- Longer lengths available on request
