

## RIBBON BLENDER MIXER FOR POWDERS — TP03

### FOR THE BLENDING AND MIXING OF POWDERS AND GRANULAR PRODUCTS.

The Ribbon Blender Machine is an essential piece of industrial mixing equipment, designed for the efficient blending of dry powders, granules, and other solid materials. This versatile mixer is constructed with a U-shaped trough and a rotating agitator featuring inner and outer helical ribbons. These ribbons move materials in opposite directions, ensuring a uniform and well-mixed blend.

This blending machine is ideal for various industries, including food processing, pharmaceuticals, chemicals, and cosmetics. It is engineered to handle a wide range of materials, offering both gentle and intensive mixing capabilities.

The Ribbon Blender Machine is particularly well-suited for use with the Loynds tablet press, making it an excellent choice for tablet mix preparation.

### FEATURES

- **Capacity:** 50kg
- Available in 316 or 304 stainless-steel.
- Transmission via a near-silent motor with gearbox.
- Low maintenance requirements.
- Variable speed settings.
- **Dimensions:** (L)1250mm x (W)550mm x (H)1250mm
