

# CHOCOLATE TEMPERING

## 150KG PER HOUR CHOCOLATE TEMPERING MACHINE M 1500

### SELF-CONTAINED STAINLESS STEEL CHOCOLATE TEMPERING MACHINE WITH ITS OWN HEATING AND COOLING SYSTEM

The chocolate tempering machine has a tank capacity of 40kg and can temper up to 150Kg of chocolate per hour.

The machine is fitted with a foot pedal which stops the flow of chocolate when presses. This makes filling moulds directly from the machine very simple.

There is a vibrating tabletop fitted over the tank where moulds can be placed to remove trapped air bubble and to assist the fill of all the mould cavities.

### FEATURES

- Tank Capacity: 40Kg of chocolate
- Production per hour: 150Kg.
- Power 4.5Kw, 3 phase
- Standard dosing function
- Microprocessor with digital temperature display
- Pedal to dose the chocolate
- Heated vibrating table
- 2 years warranty
- Low energy consumption
- Fast melting cycle and tempering cycle
- Optimal finish and design

### OPTIONAL EXTRAS

- Dosing Head for the accurate dosing directly into chocolate moulds
