

## BALL LOLLIPOP DEPOSITING PRODUCTION LINE

### FOR THE AUTOMATIC DISSOLVING, COOKING, DEPOSITING & COOLING OF SOLID COLOUR, 2 COLOUR STRIPES AND HALF COLOUR LOLLIPOPS

The Loynds Candy Depositing Lines offer a comprehensive solution for candy production, streamlining the process of cooking, depositing, and cooling ball lollipops.

Equipped with advanced technology, this production line is capable of producing candies with perfect consistency, offering versatility in candy designs including solid color, two-color stripes, and half colour lollipops.

Its innovative system automatically doses and mixes colors, flavors, and acids into the candy mixture, enhancing efficiency and product quality. Designed to cater to various production needs, the line comes in standard configurations for either candies or lollipops, with customizable options available for businesses seeking a versatile solution capable of handling multiple product types.
